

PRODUCT CATALOGUE 2024

SUNRIDGE

OUR EXPERTISE IN YOUR HANDS

Reputations are not something we would ever take lightly. We know that when you use our products it's your name that your client sees, not the one printed on the pipe. Manufactured to the highest quality standards, our pipes and fittings won't let you down.

Install with confidence. Insist on Sunridge.

COMPANY PROFILE

HISTORY

Rifeng Piping Systems (Pty) Ltd has been operating for +/-14 years as an exclusive distributor throughout 9 African countries including South Africa, of a patented multi-layered piping system produced in China. Over the years we have been seeking to increase our product range and with approval from its Principals has attracted a group of executives from the plumbing and hardware wholesale industry in SA to join forces with us to achieve this objective.

Hence the birth of **SUNRIDGE**, a company that is still the Rifeng distributing agent as before and now extends its range to include for these exciting new brands:

The business of SUNRIDGE is the:

- Sourcing
- Design
- Engineering
- Warehousing; and
- Distribution

of **SUNRIDGE** owned brands and established third party brands which are recognized for their high quality and value in the plumbing market

MISSION

SUNRIDGE will provide an ethical, transparent and consistent standard of quality, price and service to all its customers (chain-stores and independent retailers) and by doing so, will be recognized as the leader in its industry.

RIFENG CLAMPS

ADDITIONAL FEATURES & BENEFITS

- Used for all pipe lines, including PEX-AL-PEX, PPR, PVC, HDPE and galvanised piping.
- EPDM lining for:
 - Noise reduction up to 150dB level according to DIN 4109
 - Vibration reduction
 - Temperature range: -50°C to 110°C
 - Hardness 45±5* shore
 - Fire behaviour: DIN 4102: class B2
- Easy and safe assembly
- Electrogalvanized for corrosion resistance (plated 6-10 microns)

External and internal layers

They are made of cross-linked polyethylene that is extensively used in distribution of potable water. The silane cross-linking provides superior chemical and mechanical properties.

Intermediate layer

An aluminium layer with overlapped welding that guarantees a total barrier to the passage of oxygen and light which provides excellent mechanical and chemical properties

Bonding layers

They are made of a powerful adhesive that bonds the intermediate aluminium layer with the internal and external layers.

RICWM 762x455x88mm

MANUFACTURED BY
RIFENG

SANS 821:2007

Top water supply connection, G1/2
water supply Angle valve.

Blow moulded tank, HDPE material.
The tank thickness is 80 mm.

The surface of the water tank is wrapped
with styrofoam to prevent low temperature
condensation on the wall surface.

It is suitable for wall hanging toilets with
fixed spacing of 180mm or 230mm.

Blowdown bend diameter is 110 mm, optional
90 mm. 90 x 110mm Straight Available.

Flush capacity 6L / 3L

Dual Flush

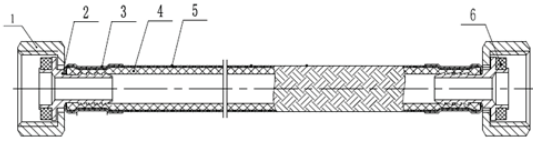

Drainage flow 2.3L/s

Max load capacity 400kg

Full range of spares available.
